I hereby certify that this correspondence is being facsimile transmitted to the U.S. Patent and Trademark Office on:

April 21, 2004
DateCarrie M. Arcand
Signed by: Carrie Arcand**SUMMARY OF RECORD OF INTERVIEW UNDER MPEP § 713.04**

Dear Ms. Ghali:

The following is a complete and proper recordation of the substance of the interview that was conducted on March 25, 2004 between Isis Ghali and Cheree' M. Haswell. The interview Summary incorrectly lists Mr. Robert Sprague as a participant in the interview and it should be noted that the interview was actually conducted with Cheree' M. Haswell. Nonetheless, the undersigned agrees to the amendments requested by the Examiner and agreed to previously by Ms. Haswell.

Claims 4, 11, and 12 were discussed in the interview. The Examiner notified Applicants that the application is in condition for allowance subject to the following revisions:

1. Change the phrase "pyrrolidone monomers" in claim 4 to "pyrrolidoethyl acrylate" as shown below.

Claim 4. The composition of claim 1 further comprising a B monomer that is copolymerizable with the A and ~~pyrrolidone monomers~~ pyrrolidoethyl acrylate.

2. Cancel claim 11.

3. Correct the dependency of claim 12 from the cancelled claim 11. Applicant authorized Examiner to change the dependency of claim 12 into claim 10 by Examiner's Amendment.

Claim 12. The composition of claim ~~11~~ 10 wherein the copolymer contains from about 10% to about 45% of pyrrolidonoethyl acrylate by weight.

Application No.: 09/901,219Docket No.: 54670US002

With the above amendments, the closest prior art does not teach or suggest a pressure sensitive adhesive composition as described by the Applicant. Furthermore, this application is now in condition for allowance.

Respectfully submitted,

Date

April 16, 2004
